Supplying businesses with effective fuel management systems and solutions.

Sapphire Lite

Product Specification Sheet

Introducing the cost effective, entry level Fuel Management terminal.
Security, control and Online Centralised Reporting.

Features & Benefits:

Track every litre of fuel or fluid dispensed with the Sapphire Lite terminal, the next generation of entry level Fuel Management terminals, utilising Contactless technology for secure and controlled fuelling.

The Lite solution provides cost effective Fuel Management with vehicle/driver and stock reporting via the secure MCS Connect website.

Our MCS Connect website is a money saving business tool providing user friendly reporting and reconciliation.

Access MCS Connect from any web enabled PC, tablet or smartphone eliminating the requirement for software installed on only one PC. Unlimited users have access to the MCS Connect website and complete control of who can access and modify transaction and stock data.
